Correction to “Omega-5-gliadin-specific immunoglobulin E-positive, but wheat-specific immunoglobulin E-negative wheat allergy dependent on augmentation factors—a frequent presentation” by Faihs V, et al. *Explor Asthma Allergy*. 2023;1:230–8. DOI: [10.37349/ea.2023.00023](https://doi.org/10.37349/ea.2023.00023)

The authors have recognized an error to the published paper:

In [Figure 1](#), the  $n$  value in the definition of dark blue (Wheat sIgE < 0.35 kUA/L, but > 0.1 kUA/L) should be  $n = 7$  (19.4%) instead of  $n = 14$  (39%). The corrected figure is given below.

### Challenge-confirmed WALDA patients ( $n = 36$ )

**Figure 1.** SIgE to wheat in patients with  $\omega$ 5-gliadin-positive, challenge-confirmed WALDA

The authors apologize for any inconvenience caused to the readers by the mistake. The conclusions made in the original publication were based on the correct data, and as such they are unaffected by the errors made.
