

License to Publish

Journal Exploration of Endocrine and Metabolic Disease

Manuscript No. _____

Article Title _____

Author(s) _____

By signing this License to Publish agreement, you (the “Author”) grant Open Exploration Publishing Inc. (the “Publisher”, “we/us”) as the original Publisher to publish the above article in *Exploration of Endocrine and Metabolic Disease* (the “Journal”), including but not limited to, abstract, text, figures, tables and supplementary materials on an Open Access basis. You grant to us the perpetual, non-exclusive right throughout the world to edit, adapt, translate, publish, reproduce, distribute and display the article in printed, electronic form or any other medium and format whether now known or yet to be developed; you agree to allow us to publish the article and associated supplementary materials under the terms of the Creative Commons Attribution 4.0 International License (CC BY, <https://creativecommons.org/licenses/by/4.0/>), which permits use, distribution and reproduction in any medium or format, provided that the users give appropriate credit, provide a link to the license, and indicate if changes were made.

1. The Author warrants to us that:

- a. the article is an original work, has not previously been published and is not currently under consideration for publication by any other entity (except if included in an institutional pre-print server);
- b. all persons who have a reasonable claim to authorship are named in the article as co-authors, including yourself, and you have not fabricated or misappropriated anyone’s identity, including your own;
- c. in the case of a multi-authored article, you have obtained written authorization from all the co-authors of the article to grant the license to us on their behalf as their agent, and you will supply a copy of the same to us if we so request;
- d. the article does not contain anything which is obscene, defamatory, libelous, infringes any right of privacy or confidentiality or any intellectual property right (including without limitation rights in patents, copyright or trademarks or other third-party right) or any other rights of any person or entity, or is otherwise unlawful;
- e. where any copyright material included in the article is sourced from third parties (e.g., illustrations, photographs, charts or maps), you have either obtained all necessary written

authorizations for the reproduction and distribution of these materials to allow us to publish them under the CC BY license and you will supply a copy of the same to us if we so request; or you should clearly indicate that the materials which may not be published under the CC BY license;

- f. if copyright in the article is owned by any third party, whether your employer or someone to whom you have assigned your rights, you have obtained written authorization from such copyright owner to allow us to publish the article under the CC BY license and will supply a copy of the same to us if we so request.

2. Author Rights

The Author or, if applicable, the Author's employer, retains all proprietary rights in addition to copyright, such as patent rights in any process, procedure or article of manufacture described in the article.

3. Copyright Notice

The Publisher shall publish and distribute the article with the appropriate copyright notice. Any and all copies of the article or any part thereof distributed or posted by the Publisher in print or electronic format will include the notice of copyright as stipulated in the Journal and a full citation to the final published version of the article in the Journal as published by the Publisher.

4. The Creative Commons Attribution 4.0 International License

The Author acknowledges and agrees that the article will be published by the Publisher in the Journal and made freely available to users under the terms of the CC BY license. The license permits the users to copy and redistribute the materials of the article in any medium or format, or to remix, transform, and build upon the materials for any purpose, even commercially, provided that the users give appropriate credit, provide a link to the license, and indicate if changes were made.
